Congenital Diaphragmatic Hernia Prenatal Care Algorithm

This flow chart was developed as a flexible educational tool to promote consistency in the general care of patients. It is not intended to substitute for or be used as professional medical advice for any individual and is not intended to set out a standard of care for any specific disease or condition. The treatment of patients requires the exercise of professional medical judgment in order to meet individual requirements. If you have questions regarding your or anyone else's health, medical care, or the diagnosis or treatment of a specific disease or condition, please consult with your personal healthcare provider.
